

## Water Jet Germany Pvt. Ltd. participated in the INDEE JAKARTA Exhibition in INDONESIA

---

This time it is Indonesia. Indonesia has emerged as one of the most potential countries in the South East Asian Region immediately after Singapore. Certainly it cannot be ignored. WATER JET GERMANY has its presence in Germany, Holland, India, Iran, Italy, Soudi Arabia, Turkey, U.A.E. and Thailand.

**INDEE - Jakarta** held at Jakarta International Expo Kemayoran, Indonesia from 2nd to 5th December, 2009. This is a major initiative by Engineering Export Promotion Council, towards consolidating Indian presence into the Indonesian market. 123 companies participated from India. India was a partner country for the exhibition. There were exhibitors from 33 countries and more then 35 thousand business visitors attended.

The people visited were much interested in knowing about our technology. We got pretty good enquiries, discussions are going on. Creative Machinery Ltd. was set as our dealer for the South East Asian region.

*Director Mr.SivaKumar in discussion with the visitors*

“India's trade with Indonesia set to double in 3 years” was a news from The Hindu Business Line, Kolkata January 7, 2010. We do hope the same.
